PROFESSIONAL SUMMARY

Final-year B.Tech Information Technology student and Full-Stack Developer with hands-on experience building cloud-based, data-driven web applications using React.js, Node.js, Flask, and MySQL. Skilled in developing real-time dashboards, business analytics tools, and scalable software solutions with open-source technologies. Certified in Front-End Development, UI/UX, and Data Analytics. Seeking an entry-level Software Engineer role to contribute to enterprise SaaS and business software product development.

TECHNICAL SKILLS

Frameworks	React.js, Node.js, Flask, AngularJS
Database	MySQL
Languages	JavaScript, Python, PHP, Java, C/C++
Tools & Platforms	GitHub, AWS, Vercel, Figma
AI / ML	Generative AI, NLP, LegalBERT, Prompt Engineering

PROJECTS

AI-Driven Interoperable Electronic Health Record (EHR) System *Final-Year Project*

- Built a production-grade, AI-driven interoperable EHR system supporting HL7 FHIR R4 standards for cross-platform health data exchange, with JWT-based authentication and Fernet field-level encryption to secure patient records.
- Implemented QR code-based Health ID generation for quick patient lookup and integrated Scikit-learn for AI-assisted data insights, validated using Synthea (MITRE) synthetic FHIR R4 patient datasets.

Tech Stack: React.js, Django REST Framework, Scikit-learn, JWT, HL7 FHIR R4, Fernet Encryption

Contract Clause Extraction & Risk Flags *Dec 2025 – Apr 2026*

- Built a full-stack web application that extracts legal contract clauses and flags risk areas using Generative AI and LegalBERT, classifying content across 10+ risk categories with automated scoring.

Tech Stack: HTML, CSS, JavaScript, Python Flask, Generative AI, LegalBERT, NLP

INTERNSHIP EXPERIENCE

Data Analyst – Virtual Internship – Deloitte *Jun 2024 – Dec 2024*

- Completed a virtual internship focused on data analytics, business intelligence, and data-driven decision-making.
- Gained hands-on experience with data analysis techniques, visualization tools, and generating actionable, real-time insights from business data.

Software Engineer – Virtual Internship – JPMorgan Chase & Co. *Oct 2025 – Dec 2025*

- Completed JPMorgan Chase's Software Engineering virtual experience, working on real-world financial technology tasks.
- Applied software engineering best practices and built tools for financial data visualization.

EDUCATION

B.Tech – Information Technology *Expected May 2027*

Sri Ramakrishna Institute of Technology, Coimbatore | CGPA: 7.12

Class XII *May 2023*

Vidya Vikashini Matric Hr Sec School, Coimbatore | 75.6%

CERTIFICATIONS

- Front-End Developer – Udemy (2025)
- UI/UX Designer – Great Learning (2025)
- Data Analytics – Google (2025)
- Prompt Engineering – AWS Training and Certification (2025)

SOFT SKILLS

Time Management • Teamwork • Decision Making • Collaboration
