SUMMARY

Aspiring Software Developer pursuing B.Tech in Information Technology with strong knowledge of Java, Python, SQL, Django, and PostgreSQL. Experienced in developing full-stack web applications, object-oriented programming, and database management. Demonstrated leadership through national-level hackathons and collaborative software projects. Seeking an entry-level Software Developer role to contribute technical skills and continue learning in a dynamic development environment.

EDUCATION

Bachelor of Technology in [Information Technology] 2023-2027
Sri Ramakrishna Institute of Technology *CGPA: 8.4*

Higher Secondary School Leaving Certificate 2022-2023
Sri Vijay Matriculation Higher Secondary School *Percentage: 81%*

Secondary School Leaving Certificate 2020-2021
Sri Vijay Matriculation Higher Secondary School *Percentage: 100%*

PROJECTS

VetMed Connect — Online Veterinary Doctor & Medical Shop Availability Checker 2025-2026

- Developed a full-stack Django web application connecting pet owners with veterinary doctors and licensed medical shops.
- Implemented location-based search and real-time availability tracking for veterinary services.
- Designed responsive user interfaces using Bootstrap 5 to improve accessibility across devices.
- Integrated PostgreSQL database for efficient management of users, appointments, and medical shop information.
- Deployed the application using Render and maintained version control through GitHub
- Tech Stack: Python | Django | PostgreSQL | Bootstrap 5 | Leaflet.js | GitHub | Render

INTERNSHIP

Full Stack Development-15-Days Intern July-2024
Virtualsoftech.in [Coimbatore]

- Developed responsive web pages using HTML, CSS, and JavaScript.
- Gained practical experience in front-end development and web application fundamentals.
- Collaborated on real-world projects involving website design, debugging, and deployment.

SKILLS

Programming Languages: Java, Python, C(Basic)

Frameworks: Django (Basic)

Databases: SQL, PostgreSQL

CERTIFICATIONS

Core Java Programming – Infosys Springboard

- Learned Core Java, OOP concepts, exception handling, collections, and application development.

Java Programming – Simplilearn

- Built Java applications using object-oriented programming, collections, file handling, and debugging techniques.

Alibaba Cloud Program – Cloud Fundamentals

- Gained knowledge of cloud architecture, storage, networking, deployment models, and scalable infrastructure solutions.

ACHIEVEMENTS

Team Leader – Smart India Hackathon (SIH) 2025

- Led a team of 6 members in designing and developing a Real-Time Bus Tracking System with Low Bandwidth Optimization.
- Coordinated project planning, task allocation, and solution presentation.
- Developed an innovative solution to improve public transportation monitoring in low-network connectivity areas.

Participant – AI Regional Summit 24-Hour Hackathon

- Developed an AI-Based Student Dropout Prediction System using academic and behavioral data.
- Built predictive models to identify at-risk students and support early intervention strategies.
